

Position: **Water Treatment Engineer**
Location: **Appleton, WI**
Reports to: **Vice President**
Hours: **Full time**
Website: www.Water-RightGroup.com

If you are seeking a position with a stable and profitable company, where you can be a member of a high energy family oriented team, then Water-Right is the company for you.

Water Right, Inc. manufactures water treatment products for the industry. Our primary focus is to offer the best solutions for water treatment needs by providing "value-added" products; tools and support programs designed to best assist the customer in growing a successful business.

Business Unit Overview:

The Water Treatment Engineer will design and quote out systems for CustomCare®, a commercial and industrial brand and C&I division of Water Right Inc.

Job Responsibility:

The Engineer will be responsible for assisting all facets of the Water-Right/CustomCare Commercial and Industrial business. Scope of work includes involvement in the design, quotation, documentation and manufacturing of catalog and specialty systems. The position will also have the opportunity to provide input during the development of new product lines.

Summary of Qualifications:

The ideal candidate will be familiar with:

Various Supporting Skills:

- Bachelors of Science degree
- Experience with industry documentation, i.e. PFDs, P&IDs, Drawings, Bills of Material, etc.
- Experience in the design and layout of package systems including piping and instrumentation
- Water treatment industry experience
- Strong computer skills, including Microsoft Office Suite and Auto-Cad
- Excellent communication and organizational skills
- Leadership and management experience
- Prior experience that demonstrates a strong work ethic and ability to multi-task

Minimum Qualifications:

- Ability to design C&I systems
- Willingness to learn in a team environment
- Ability to perform in a multi-functional environment

Industry:

- Light Commercial, Commercial and Industrial Water Treatment Systems
- Engineering: filtration, softening, pumping systems, reverses osmosis, etc.
- System Controls: Clack Fleck, AquaMatic, PLCs, etc.
- Multiport and Diaphragm Valve operated Systems

This position requires minimal travel to attend conferences, training and other outside events. Providing technical support requires an active presence at the company headquarters in Appleton, Wis. This person must lead by example, see the big picture, and most importantly have fun within our culture, act with integrity, foster teamwork, strive for excellence, and be passionate.

Benefits

Water-Right is a solid company that offers a competitive benefits package after 60 days to all full-time employees, such as health and vision insurance, life insurance, 401K, PTO time, HSA account, Flexible Spending Account, and inter-company events and programs. Additional benefits such as bonuses are typically paid at the discretion of management and are based on company performance.
